

G474-C307 Tension Strength Fixture **Meets ASTM C307**

G474-C203 fixtures enable tensile testing of chemical resistant mortar, grouts, and monolithic surfacing. The test fixture for this ASTM standard is meant to be used with a specific shape test specimen. ASTM C307 defines the dimensions of both the test specimen and test fixture. (American Society for Testing and Materials [ASTM], 2008)
